Isis Carvalho Coutinho

Hello,

My name is Isis Coutinho, I am Belgian-Brazilian, and I grew up in Rio de Janeiro. You can learn more about my work on my portfolio website: (<http://isisverween.com>). I am available to start immediately.

I speak French, Portuguese, and English fluently, and have an intermediate level in Dutch and Spanish. Currently, I am taking Dutch classes (Level B1) to become fluent.

In 2021, I graduated from film school, where I gained experience in various areas such as pre-production, production, and post-production. However, my true passion lies in editing, animation, and design. I taught myself to master programs like Photoshop, After Effects, Toon Boom, among others.

I had the opportunity to work in marketing and communications, creating content for social media and developing promotional plans to engage the public. I produced graphic arts, videos, and animations, which gave me the versatility to work in different sectors within Design, Audiovisual, and Motion Design.

As a volunteer, I participated in two film festivals, welcoming guests and performing simultaneous translations, as well as collaborating in a cultural festival in Ghent. I also worked in two clothing stores in tourist areas, attending to customers from all over the world, which improved my skills in reception, languages, and production. Recently, I completed an animation project for the exhibition "Expo Da Vinci: L'artiste, l'ingénieur, le gastronome" for the company SLL Concepts.

Since childhood, I have been passionate about drawing and have always been deeply interested in creativity and art. I consider myself a dedicated, disciplined, and well-organized person, qualities that are essential for artistic and creative work.

My main objective now is to gain experience in my field. I would like to conclude this letter by reaffirming my commitment to dedication, punctuality, and enthusiasm to start working as soon as possible. I am attaching two links explaining possible internships I could undertake for your company. I am open to new possibilities and experiences.

Sincerely,
Isis Coutinho
